FLOWERING TREES

ROYAL RED DOGWOOD REDDEST DOGWOOD GROWN

For over 20 years we have been trying to find a Dogwood that would be outstanding. This is it. It is an exceptionally good grower nice and straight. Leaves are blood red in early Spring and late in the summer while new growth is on. The blooms are a deep red and are very large. In the past 4 to 5 years we have visited over 200 Nurseries in the North, East and South comparing our Dogwood with what they have. We just have not found a dogwood that is better than this one. You will say the same when you have grown a few.

A THOUGHT

ONCE UPON A TIME a great sage addressing a heard of donkeys, asked this question: "What would a donkey require for a three-day journey into the wilderness?"

And several donkeys answered all at once: Six bundles of hay and three bags of corn, and the sage replied: that sounds like a fair price, but I have need for only one of you for a three day journey and I do not have six bundles of hay and three bags of corn, Who will go for less.

AND BEHOLD

ONE WOULD go for six bundles of hay and two bags of corn and another for three bundles of hay and one bag of corn, and then one especially long eared donkey a way in the back spoke up and said "I will go for just one bundle of hay."

WHEREUPON

THE SAGE EXCLAIMED: "thou art a disgrace to the company and a donkey from a way back. Thou canst not live for three days on one bundle of hay much less undertake to profit thereby".

"TRUE" admitted the donkey, hanging his long ears in shame.

"But I just wanted the order."
